

Financial Portrait Software System™

Enterprise Expense Reporting

web application coming soon

- Prototype available on www.financialportrait.com, please try it out
- New browser-based web application, v1 coming soon
 - Uses any modern browser, your Db2 for i database and the IBM Db2 for i .NET Provider on an otherwise stock version of Microsoft IIS web server
 - c# and Db2 for i source code included in first version, so a software license agreement is required
 - but you could run it in your own private cloud
- Desktop, mobile, tablet and theatre optimized views
- Integration component priced separately
 - (product can be de-coupled from Financial Portrait G/L, A/P and A/R)
